Thinking Beyond Traditional Air Service – New Models, New Options

The last eight years have been difficult for many communities in retaining existing air services as airlines consolidated, exercised capacity discipline and changed aircraft types. While the growth of the ultra-low cost carriers has been a boon to some markets, airports have been forced to be creative and innovative in finding even more new types of air services. Hear from industry leaders about some of the latest in unconventional opportunities.

Moderator: Bernard LeBlanc, President and CEO, Greater Moncton International Airport

Speakers: Mac Kern, Vice President of Commercial Planning, Surf Air
Christina Cassotis, CEO, Allegheny County Airport Authority
Matthew Maguire, President and CEO, OneJet

Creating a Culture of Stewardship: Sustainability At All Levels Of The Organization

In order to realize the full benefits of sustainability initiatives, successful businesses have discovered the importance of implementing the triple bottom line at all organizational levels. It can be difficult, if not impossible for organizations to show measurable benefits of such sustainability efforts if only one line of business or department is engaged – sustainability is not referred to as a “one-legged stool” after all! Airports can learn from our business partners and stakeholders as they seek to create a culture of stewardship and embrace the triple bottom line at all levels.

Moderator: Rob Wigington, President and CEO, Metropolitan Nashville Airport Authority

Speakers: Jeff Yablun, Executive Vice President, Chief Commercial Officer, HMSHost
Karin Giefer, Associate Principle, Arup
Steven Shestag, Director, Enterprise Remediation, The Boeing Company

10:00 am – 12:00 pm General Session I: Welcome and Keynote Address

Grand Ballroom

Join James C. Cherry as he opens the 2015 ACI-NA Annual Conference and Exhibition with a look back on his year as ACI-NA Chairman. ACI-NA President and CEO Kevin M. Burke will also deliver his annual State of the Industry Address during the morning session. Following those remarks, Dr. Travis Bradberry will share the secrets of emotional intelligence and our ability to recognize and understand emotions in yourself and others. Using our ability to manage behavior, Dr. Bradberry will demonstrate how to navigate relationship complexities to achieve positive results.

Welcome:

Kevin M. Burke, President and CEO, ACI-NA
James C. Cherry, President and CEO, Aéroports de Montréal; Chair, ACI-NA
Bryant L. Francis, Director, Long Beach Airport

Introduction: Joe DiDomizio, President and CEO, Hudson Group

12:15 pm – 12:35 pm Solutions Showcase: NICE Systems: Enhancing Safety, Security, and Operations: How an Innovative Mobile Situation Management Solution is Putting LAX on the Map

Exhibit Hall A/B Solutions Showcase 1

Airports are a lot like miniature cities-- dynamic, complex and expansive, with lots of moving parts, and disruptive incidents that need to be managed daily. The speed, efficiency, and effectiveness with which incidents are handled can directly impact risk, passenger perception, efficiency and the airport's bottom line. The faster incidents are identified and contained, the lesser the impact. But successful resolution hinges on real-time situational awareness and precise coordination. In this presentation, you'll get an overview and live demo of an innovative situation management solution that has been successfully deployed by LAX.

12:40 pm – 1:00 pm Solutions Showcase: Ghafari Associates: Lighting Design Guidelines for Airports – Lessons Learned

Exhibit Hall A/B Solutions Showcase 2

Join us in discussing lessons learned for saving energy/ costs and improving airport operations and maintenance.

1:05 pm – 1:25 pm Solutions Showcase: AST Corporation: Building Next-Generation-Passenger Experiences

Exhibit Hall A/B Solutions Showcase 1

In today's world, passengers expect exemplary service, not only from Air Carriers, but the Airports they utilize. AST Corporation and Oracle have combined technology and industry expertise in a solution that enhances the Passenger Experience at Airports. We create a 1:1 connection between the ultimate users of Airports and the Airports themselves. This mutually beneficial relationship can lead to non-aeronautical revenue lift opportunities by catering to known customers, and offers the opportunity to influence social media conversation surrounding your Aviation Authority. This session will demonstrate the capabilities of the solution and share how your organization can build a next-generation passenger experience.

Let's Get Real About Airport Real Estate Development (Room 104A)

Does your airport have office buildings, warehouses, hotels or even a mall? What is the real estate development strategy for your airport? Many airports have vacant land and use innovative development ideas to help enhance non-aeronautical revenue. Airports are continuing to identify innovative ways to generate revenue with their assets and advocating for the commercial development of land not suitable or available for aeronautical activity. Hear from your peers and experts in the field on the latest innovative developments.

Moderator: Rhonda Hamm-Niebruegge, Director of Airports, Lambert-St. Louis International Airport

Speakers: Myron Keehn, Vice President of Commercial Development, Edmonton International Airport
Thomas Eitler, Senior Vice President, Urban Land Institute
Marsha Stone, Senior Director- Commercial Enterprise, Indianapolis Airport Authority

4B.

Making the Connection Personal (Room 104B)

The ability to connect via mobile with virtually every traveler at every stage of the journey creates an unprecedented opportunity for airports to deliver a continually personalized and more relevant experience. In 2015, the SITA Passenger IT Trends Survey reported that 83% of passengers are

carrying a smartphone and the penetration for mobile boarding passes is expected to double in the next 12 months. By the end of the session, you will hear from the experts on cutting edge technologies and the ever changing wave of innovation to allow you to succeed.

Moderator: Joyce Carter, President and CEO, Halifax International Airport Authority

Speakers: Maurice Jenkins, Director, Information Systems and Telecommunications, Miami International Airport
Ron Reed, Director, Airport Business Intelligence, SITA
Antoine Rostworowski, Director of Facilitation and IT, ACI World

4C. Best Practices for Avoiding and Minimizing Bid Protests (Room 104C)

Bid protesting is an issue that cuts across many different kinds of procurement, from concessions to professional services to construction, and can easily derail the procurement process. This presentation will feature positive steps that airports and associates can take to ensure a smooth procurement process. Through an interactive panel discussion, we will highlight success stories of airports who have recently engaged in a procurement process that successfully avoided or quickly and efficiently settled a challenge.

Moderator: David Y. Bannard, Partner, Foley & Lardner LLP

Speakers: Leslie K. Cappetta, Chairman, SSP Americas
Brandon J. Mark, Manager of Airport Properties, Oakland International Airport
Geoffrey W. Neumayr, SE, Deputy Airport Director- Design & Construction, San Francisco International Airport

5A. Rise of the Drones– What Do Unmanned Aircraft Systems Mean to You? (Room 104A)

Whether you call them unmanned aircraft systems (UAS), remotely piloted vehicles (RPVs), or even “drones”, these new generation aerial vehicles are having broad and significant impacts on both the US and Canadian aviation industry. In this plenary session, we’ll discuss the rapidly evolving roles and capabilities of UASs as well as the safety, regulatory, and operational issues associated with their use.

Moderator: Dean Schulz, Executive Vice President/COO, Reno-Tahoe Airport Authority

Speakers: Peter Kirsch, Partner, Kaplan, Kirsch & Rockwell, LLP
Carson Lyons, Vice President, AIG
Tom McMahon, Vice President, Advocacy & Public Affairs, AUVSI

5B. How to Create an Accessible Airport (Room 104B)

Is travelling through the airport really that bad? Airports and airlines are working to enhance the travel experience but are we doing enough to meet the needs of today’s passengers? And are we appropriately planning to meet the needs of tomorrow’s diverse mix of air travellers? Panelists discuss how airports will cater to an emerging group of air travelers; the generation of passengers that will be traveling for the next three to four decades.

Moderator: John Martin, Airport Director, San Francisco International Airport

Speakers: Candace Cable, Disability Awareness Trainer, Open Doors Organization
Cathy Nyfors, Manager, Customer Care - Guest Relations, Vancouver Airport Authority

5C. Leading Edge Trends In Air Service – What's Next? (Room 104C)

With airlines realizing consecutive quarters of outstanding profits, some North American airports have been realizing big gains in new services, carriers and destinations. But all this success has not been shared by all airports and plenty of risks and controversies surround commercial aviation. Is capacity discipline dead? Will the government break up the big carriers? Will we run out of pilots? Hear from industry experts on what North American airports could be in for in the next several years.

Moderator: Bryant L. Francis, Director, Long Beach Airport

Speakers: Brett Snyder, President, Cranky Flier, LLC
Bill Swelbar, Executive Vice President, InterVISTAS

Mobile Passport, developed by Airside Mobile Inc. in partnership with ACI-NA, is the first smartphone system approved by CBP to facilitate entry into the U.S. Airside will present lessons learned from its first year of operations and discuss plans for future expansions.

11:25 am – 11:45 am **Solutions Showcase: Unisys: Shape the Passenger Journey Today – Increasing Passenger Satisfaction With a Focus on Baggage**
Exhibit Hall A/B Solutions Showcase 1

The Future is here. Shape the passenger journey today with a focus on baggage. From home printed bag tags to common use fast bag drop to roaming mobile-enabled agents, learn how innovative technologies can shape the airport journey of tomorrow for your customers today. Attendees will learn how to shape the passenger baggage check-in experience for increased satisfaction and operate a true shared and common use environment that leverages incumbent and modern technologies. Examples from Rotterdam The Hague (RTM) airport and Billund (BLL) airport will be covered.

11:50 am – 12:10 pm **Solutions Showcase: Zodiac Arresting Systems: Owning an EMASMAX Bed and How to Properly Maintain the System**
Exhibit Hall A/B Solutions Showcase 2

Zodiac's EMASMAX system is made up of cellular cement blocks. Each block has a plastic lid and bottom tray. The blocks are installed in a checkerboard pattern within a given RSA and each block is adhered down to the substrate. A seam seal and side coating are applied to the entire system helping to keep the environment out. A properly maintained system should have a product life upwards and potentially past. Our presentation will be discussing the proper maintenance of an EMASMAX system looks like and what it requires. We plan to gather feedback from existing EMASMAX owners highlighting real world experiences.

12:15 pm – 12:35 pm **Solutions Showcase: Parabit Systems: Increasing Revenue Streams, Enhancing Passenger Experience**
Exhibit Hall A/B Solutions Showcase 1

We understand that the technology of the future must hold the passenger experience as paramount. Creating engaging solutions that benefit both the passenger and transportation operations is our goal. We will present eTract Interactive signage. Turn a Digital Signage Display into an Interactive Kiosk. Display advertising, play videos link digital signage images/videos to additional content or a website. Upon detection of a user within 2 - 15 feet, the kiosk changes the content and loads a Restricted Web Browser with the Courtesy Phone option, display Telephone Directions upon removing the handset from its Hook-switch. Remotely change content and configuration via our eTract Remote Content/Configuration Application.

12:40 pm – 1:00 pm **Solutions Showcase: Air Serve Corp: Redefining Traveler Experience with Enabling Technology**
Exhibit Hall A/B Solutions Showcase 2

As technology has evolved over the years, Air Serve has developed and implemented enabling technology solutions in the aviation market. Air Serve will demonstrate and discuss how technology has changed the service delivery model, allowing for greater efficiencies, higher quality and an enhanced traveler experience.

Building a Sustainable Workforce – Talent Farming versus Talent Hunting

A new approach to sourcing talent might be necessary to increase the likelihood that airports have access to the talent necessary to execute their business strategy in the 21st century. Shifting an airport's focus away from hunting for talent only when there is a specific need toward farming for talent, always and in all ways, should be considered. Innovative talent sourcing strategies, to sustain an organization's talent pipeline, are essential to building a sustainable 21st century workforce with the skills necessary to execute current and future business strategies.
