4:00pm – **ACI World and ICAO Committee on Aviation Environmental Protection (CAEP) Initiatives**
4:45pm
(*Room 102B*)

From the development of a CO₂ standard for aircraft to a global market-based measure for greenhouse gas emissions, ICAO members have been hard at work this past year on environmental issues in the lead up to the next full CAEP meeting and the United Nations global climate talks in December. The ACI World Standing Environment Committee has been busy as well with members participating in CAEP working groups on issues such as emissions standards, community engagement case studies, and updating the ICAO Airport Planning Manual. In this session we'll get an overview of recent activity and what to expect (or not to expect!) on the international front over the next six months.

Speaker: Xavier Oh, Senior Manager Environmental Affairs, ACI World
