IHG makes major environmental commitment by rolling out IHG Green Engage™ programme across global estate

LONDON, UK, 27TH October, 2014: [InterContinental Hotels Group \(IHG®\)](#), one of the world's leading hotel companies, has today announced that from 1st January 2015, its flagship IHG Green Engage™ programme will be rolled out across the company's global estate of over 4,700 hotels.

IHG Green Engage is an online environmental sustainability tool, which gives hotels the ability to track how much energy, carbon and water they are using, as well as assessing how waste is managed. This allows them to see how much they are spending and saving and to feed data directly to IHG's corporate clients as part of the Request for Proposal (RFP) process.

The IHG Green Engage system comprises more than 200 specific actions – or 'Green Solutions' – designed to reduce hotels' environmental impact, with IHG's managed hotels avoiding \$73 million in energy costs alone in 2013. This is another significant benefit given that utilities typically represent one of the highest expenses for hotels.

\$73 million in energy costs alone in 2013

Take five easy steps to find savings for your facility

We already know a little about your facility. Verify a few items to make sure our experts can provide a better estimate of savings. If you are having difficulty with any of the questions, skip them. Your answers are saved along the way, so you can always come back.

- 1. Verify basic information
- 2. Confirm service provided
- 3. Tell us a little about your building
- 4. Tell your energy bills and utility rates
- 5. Let us know what you get done

About This Tool

General Information

Fill out as many of the fields below as you can. It is OK if you do not know the answers to everything, but the more accurate information you provide the better estimates we can make about your potential savings. Based on your earlier inputs, we tried to get started by filling out some of the fields for you. If any of the information is incorrect, please change it! Please bookmark this page in your web browser. If you need to step away from the computer, you may close the window and your progress will be automatically saved.
